

Folding Handle

MANUAL TELESCOPIC BOLLARDS

The Bollards2u range of manually operated telescopic bollards provides a secure and cost effective method of protecting premises and vehicles. Utilised around the world on garage forecourts, car parks, shop fronts, as ATM protection and as temporary street furniture, telescopic bollards are a true deterrent against crime and are also aesthetically pleasing.

From listening to our clients it has become apparent that the handle on our products can sometimes clash with the aesthetics of a building or facility, for these occasions we have developed our folding handles which offer a more "integrated" look and yet maintain the high level of security.

Applications: All Manual Products

About Us

Bollards2u specialises in bollards and street furniture and is a division of SIS Construction a family run building company. We supply and install a comprehensive range of products and will be pleased to provide you with a quotation upon request.

Bollards2u combines the unique expertise, innovative approach and personal attention to detail. The result is the provision of powerful yet individual solutions for a wide range of security and street furniture applications.
