

Genie MKII

AUTOMATIC RISING BOLLARDS

The Genie MKII is a hydraulic bollard designed specifically for residential use, standing 500mm high and finished in brushed stainless steel it is an attractive solution to controlling access to your property and protecting vehicles or caravans on your driveway.

The Genie MKII is a genuine deterrent against vehicle theft and also reduces the chance of burglary as thieves are prevented from using your driveway to hide from view.

With the purchase of some extra equipment the Genie can be installed to operate in conjunction with automatic gates and garage doors to provide a totally automated solution.

Specification:	
Bollard Height	500mm
Bollard Diameter	101mm
Operations per day	250
DETR Approval	NO

Applications: Residential/Domestic Security

Access Control System: Key Fob

We have improved the operation from the Genie MK I bollard (above)

We have also removed the lid to improve the aesthetics and re-designed the operating software and hardware to give even better reliability than before.
