

School Canopy

*Specialising in Bollards
and Street Furniture*

As you will know looking after children brings with it great responsibility.

Skin cancer is Britain's second most common form of cancer and as you have a "duty of care" to protect your children from this, you should consider providing permanent protection.

With our canopy structures we can offer a wide range designed to provide sunshade and rain protection. Our structures offer a more permanent solution and are ideal for covering school and nursery play areas, walkways, entrances and catering areas. They are available in a variety of standard modular sizes and colours, and can also be made to special order.

Be "one up" on your competitors and offer your children a UV-resistant shaded area.
