

Canopy Structures

*Specialising in Bollards
and Street Furniture*

We offer a comprehensive range of tensile fabric structures and light weight canopies which are excellent alternatives to traditional brick buildings, conservatories or pavilions. These structures are manufactured from aluminium or steel frames with hard wearing fire retardant PVC and UV resistant canopies that provide all year round cover.

The versatile nature and range of styles of these products also makes them ideal for use in a variety of applications including schools, nurseries, pubs, restaurants, hotels, conference centres, markets and theme parks. We would be more than happy to arrange a site visit and provide you with a written quote.
