

KLP® Tongue and Groove

Durable and environmentally friendly

KLP® Tongue & Groove Plank was originally developed specifically for use in stables but is now being used for many other applications including fencing and various animal enclosures.

In conventional stables, the lower sections of steel framework are covered with hardwood. KLP® Tongue & Groove Planks are made from high-quality recycled plastics. They combine the workability of wood with the durability of plastic. Eco Plastic Solutions provides support in the form of comprehensive advice on construction and working with KLP® Tongue & Groove Planks in stables. Ask for a technical brochure.

Reasons to use KLP Tongue-&-Groove:

- Easy to clean, which guarantees better hygiene.
- Maintenance free
- Does not contract as a result of drying out, which means it will not crack
- Extremely high impact resistance
- Can be screwed, drilled and sawed in the same way as wood

Specifications

Color	Height	Thickness	Length
Brown	170 x	30 x	1200mm
Black	170 x	30 x	1200 mm
Brown	170 x	30 x	1500 mm
Black	150 x	20 x	2500 mm
Black	140 x	32 x	2500 mm
Brown	140 x	32 x	2500 mm
Green	140 x	32 x	2500 mm
Black	140 x	28 x	2500 mm
Brown	140 x	28 x	2500 mm
Green	140 x	28 x	2500 mm
Black	140 x	38 x	2640 mm
Brown	140 x	38 x	2640 mm

Durable solutions for Equestrian Centres

For more than 30 years, Lankhorst Recycling has been making products from processed plastic waste and has built up a vast store of knowledge of materials and methods.

KLP®, the brand name on Lankhorst's products has become a standard for quality. The raw materials that we use always come from the same sources and our production methods are tried and tested.
